Volume 8, Issue 1 • December, 2013

**BLUE STAKES OF UTAH**  
UTILITY NOTIFICATION CENTER, INC.

## DAMAGE INFORMATION REPORTING TOOL (D.I.R.T.)

Blue Stakes has been tracking damages to underground utilities in Utah since 2006 that have been submitted by Association members into the Common Ground Alliance (CGA) Damage Information Reporting Tool (D.I.R.T.).

One of the more notable statistics in what has been reported pertains to the percentage of damages occurring to underground utilities where no call was made to Blue Stakes to have utilities located and marked prior to digging by the excavator! Damages reported on natural gas facilities in Utah that are attributable to no call being made to Blue Stakes since 2006 are:

	{	<b>2006 – 48%</b>	<b>2010 – 27%</b>
		<b>2007 – 44%</b>	<b>2011 – 29%</b>
		<b>2008 – 37%</b>	<b>2012 – 27%</b>
		<b>2009 – 30%</b>	<b>2013 – 27%</b>

Blue Stakes finds the information submitted valuable in creating training programs addressing the need to “Call 811 Before You Dig”. It is estimated on a national basis that less than 1% of damages occur to underground facilities when a request is made to have underground facilities located and marked prior to excavation.

Blue Stakes has an easy to use virtual D.I.R.T. application and link on its web site at [www.bluestakes.org](http://www.bluestakes.org). Blue Stakes encourages all Association members to submit damages that occur to their underground facilities into this application.

For additional information on Blue Stakes virtual D.I.R.T. application, please contact Blue Stakes Member Services Department at (800) 662-7836, extension 2103, or [member@bluestakes.org](mailto:member@bluestakes.org).

## ASSOCIATION HOLIDAYS

Blue Stakes Notification Center will be closed on the following Association recognized holidays:

Christmas Eve 12/24/13 (Tuesday)	Pioneer Day 7/24/14 (Thursday)
Christmas 12/25/13 (Wednesday)	Labor Day 9/1/14 (Monday)
New Year's Day 1/1/14 (Wednesday)	Thanksgiving 11/27/14 (Thursday)
Presidents Day 2/17/14 (Monday)	Day After Thanksgiving 11/28/14 (Friday)
Memorial Day 5/26/14 (Monday)	Christmas Eve 12/24/14 (Wednesday)
Independence Day 7/4/14 (Friday)	Christmas 12/25/14 (Thursday)

\*Denotes Utility Classification Represented

## CHAIRMAN'S MESSAGE

It has been my opportunity to serve as the Chairman of Blue Stakes of Utah Utility Notification Center, Inc. for a number of years. During each of these years I have had the privilege of addressing the Association's membership regarding the financial condition and the overall performance of the Notification Center at its Annual Meeting of Members and appreciate the opportunity of doing so once again this year.

Association employees continue to operate an efficient Notification Center providing the services of processing locate requests and damage prevention education throughout the state of Utah for a cost to its members that is comparatively lower than other one-call centers throughout the country.

Membership in the Association now totals 554 members, a notable increase compared to the total membership of 266 that existed when the Board of Directors decided to create an in-house management team to operate the Notification Center in 2001.

I would like to thank the Notification Center's President, members of the Management Team, and employees for processing accurate locate requests efficiently and cost effectively, providing damage prevention education throughout Utah, and maintaining performance and customer service levels that Excavators and Operators have come to expect and rely upon. I would also like to express appreciation to the members of the Board of Directors for their continued oversight and commitment to the success of the Association.

The Association's success would not be possible without member participation and financial backing. Thank you for your support. Please feel free to contact myself, any member of the Board of Directors, or the Notification Center's President if you have any questions, suggestions, or concerns you would like addressed.

Sincerely,

Vaughn W. Shosted  
Chairman

## UNIFORM COLOR CODE & MARKING GUIDELINES

Blue Stakes receives questions from operators wanting to find out how they should mark their underground facilities and from excavators wanting to know what the markings mean.

Noted in Utah Code 54-8a-5(3) indicates that the underground facilities shall be marked using as a guideline the Uniform Color Code and Marking Guidelines, Appendix B, published by the Common Ground Alliance.

These guidelines specify the best practices in the marking of underground utilities including the APWA color code, guidelines for excavators to follow when pre-marking the proposed excavation area, and the guidelines for operator's to follow when marking their underground facilities.

Blue Stakes encourages all Association members to review their marking practices and incorporate the Common Ground Alliance (CGA) Uniform Color Code & Marking Guidelines, Appendix B. These guidelines can be found on the Common Ground Alliance web site at [www.commongroundalliance.com](http://www.commongroundalliance.com). A copy of these guidelines are also available within Blue Stakes Excavators' Guide that can be found online at Blue Stakes web site [www.bluestakes.org](http://www.bluestakes.org) or you may obtain a hard copy by contacting Blue Stakes Member Services Department at (800) 662-7836, extension 2103, or [member@bluestakes.org](mailto:member@bluestakes.org).

## PROMOTIONAL HANDOUTS

Blue Stakes provides, free of charge, the following promotional handouts for distribution promoting the national **"5 Steps to Safer Digging"** campaign encouraging excavators and the general public to **"Call 811 Before You Dig"**:

- Excavators' Guide
- Key Chains
- Magnets
- Color Code Stickers
- Color Code Information Cards
- "5 Steps to Safer Digging" Video
- CGA Best Practices

To request any of the items listed, contact Blue Stakes Member Services Department at (800) 662-7836, extension 2103, or [member@bluestakes.org](mailto:member@bluestakes.org).

## MEMBERS ENCOURAGED TO REVIEW THEIR NOTIFICATION AREA & CONTACT INFORMATION ANNUALLY

Blue Stakes continually updates its mapping application including roads and address ranges throughout the year and other base map layers when needed.

Member utility owners typically select their notification areas to follow boundaries, roads or other features on the base map. Since the base map is continually being updated, it is important for member utility owners to review their notification areas to make sure they cover the extent of their underground facilities. Special attention should be given to new subdivisions, city annexations and other growth-related changes. Blue Stakes recommends that members review their notification areas and contact information on an annual basis and more frequently when needed. For help reviewing and modifying your notification area, please contact Blue Stakes' Member Services department at 801-208-2103 or [member@bluestakes.org](mailto:member@bluestakes.org).

Blue Stakes uses map data provided by the State of Utah's Automated Geographic Reference Center (AGRC), which compiles map data created by local and state government GIS departments. This data is official and is typically more current and accurate than data provided by commercial vendors. Blue Stakes uses the NAD83 datum and coordinate system for all map data. For questions about the base map, please contact James Wingate at [jamesw@bluestakes.org](mailto:jamesw@bluestakes.org) or 801-208-2111.

## AFTER HOURS EMERGENCY ON-CALL PROGRAM

[www.bluestakes.org](http://www.bluestakes.org) • (801) 554-7747

Blue Stakes provides Association members with an After Hours Emergency Program designed to provide names and contact information of other member utilities located around an emergency dig site. This information is provided either through Blue Stakes website or by calling Blue Stakes after hours emergency on-call phone number.

Association Members are encouraged to access after hour emergency contact information using the *Utility Contact Information Lookup* application found within the Member link on Blue Stakes website at [www.bluestakes.org](http://www.bluestakes.org). Please contact Blue Stakes Member Services Department at (800) 662-7836, extension 2103, or [member@bluestakes.org](mailto:member@bluestakes.org) if assistance is needed with this on-line application.

For those Association members without access to the Internet, Blue Stakes offers an After Hours Emergency On-Call phone number to obtain after hour emergency contact information – **(801) 554-7747**. This program is only available on weekdays from 5:00 p.m. – 7:00 a.m. and on Saturdays, Sundays, and Holidays.

Through one of these two methods, Blue Stakes will provide the emergency contact information of Association members that may have underground facilities in the vicinity of an emergency dig site. No locate request assignment (LRA) number will be generated. It is the responsibility of the entity performing the emergency excavation to contact other member utilities in the vicinity utilizing the contact names and phone numbers provided by Blue Stakes.

# NEW! TICKET EXPLANATION GUIDE

Blue Stakes has created an easy to read Ticket Explanation Guide for Excavators and Operators to reference in understanding the information displayed on a Locate Request / Ticket.

The guide was produced in a fold out format on tear resistant paper and conveniently sized – 5 x 7 inches for retention and reference as needed.

The guide is broken down into the 6 sections that appear on a Ticket and provides a brief explanation for each field displayed within each section.

To obtain copies of Ticket Explanation Guide, contact Blue Stakes Member Services Department at 800-662-7836, extension 2103, or [member@blustakes.org](mailto:member@blustakes.org). (continued on next page)

Meet date: Good Thru : 11/01/13 07:20 Update By: 10/30/13 07:20

1—Member Code—Recipient of ticket. EMLCFM or FAXCFM if excavator, or code of member utility company.  
2—Sequence number—Order of ticket received. 00001 is first ticket of day. 00039 is 39th ticket of day on A server.  
3—Server— Either UTAHa or UTAHc. Blue Stakes' computer server that created the ticket.  
4—Delivery time—When the ticket was delivered by Blue Stakes to the member code.  
5—Ticket Number—Example # is A32910048.  
6—Revision Number—00 is original ticket; 01, 02, etc., for 2nd Notice, Re-Mark, Retransmit or Cancel, if applicable.  
7—Priority—Normal (NORM), Emergency (EMER), Rush (RUSH).  
8—Ticket Type—New (NEW), Update (UPDT), 2nd Notice (2NDR), Re-Mark (RMRK), Retransmit (RXMT), Cancel (CNCL).  
9—Lookup—How member code was selected for notification. GRID = polygon drawn on map. PLCE = place default.  
10—Header Message—Info message if ticket is Meet, Emergency, Update, 2nd Notice, Re-Mark, Retransmit or Cancel.

11—Ticket Number—Example # is A32910048.  
12—Revision Number—Revision 00 is original; 01, 02, etc., for 2nd Notice, Re-Mark, Retransmit or Cancel.  
13—Taken—When the Operator started processing the ticket.  
14—Old Ticket—The original ticket number, if this is an Update ticket, when it was Taken, and by what Operator.  
15—Submitted—When the Operator finished processing the ticket.  
16—Operator—Who processed the ticket (Blue Stakes employee or excavator via internet).  
17—Channel—How the ticket was requested. 123 = phone call; DUP, ITE, OTR, QT & WEB are via internet.  
18—Legal Date—When ticket must be marked; when excavator can start digging. 2 business days after Submitted date.  
19—Meet date—When Meet will take place, if Meet is requested by Excavator.  
20—Good Thru—Ticket expiration date; when excavator must finish digging. 14 calendar days after Submitted date.  
21—Update By—Date/time by which Excavator must create Update ticket if he wishes to dig beyond Good Thru date.
